

**WESTMINSTER SCHOOL
THE CHALLENGE 2014**

GEOGRAPHY

Wednesday 30th April 2014

Time allowed: 1 hour

You must answer all of Section A and one question from Section B.

Each section is worth 25 marks.

Answers to Section A and Section B should be written on the headed lined booklets provided.

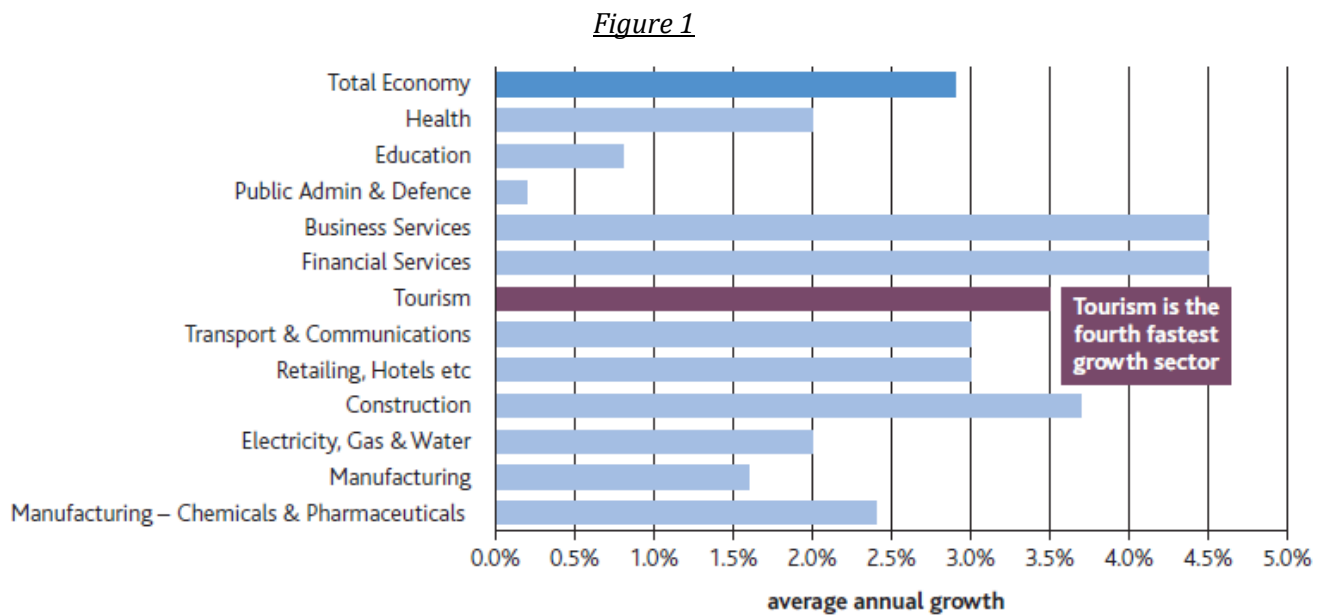

Blank page

SECTION A (25 marks)

Answer all questions

Question 1

Study Figure 1 which shows the forecasted average annual growth in different sectors of the economy

a) Tourism is projected to be the fourth fastest growth sector between 2010-2020.

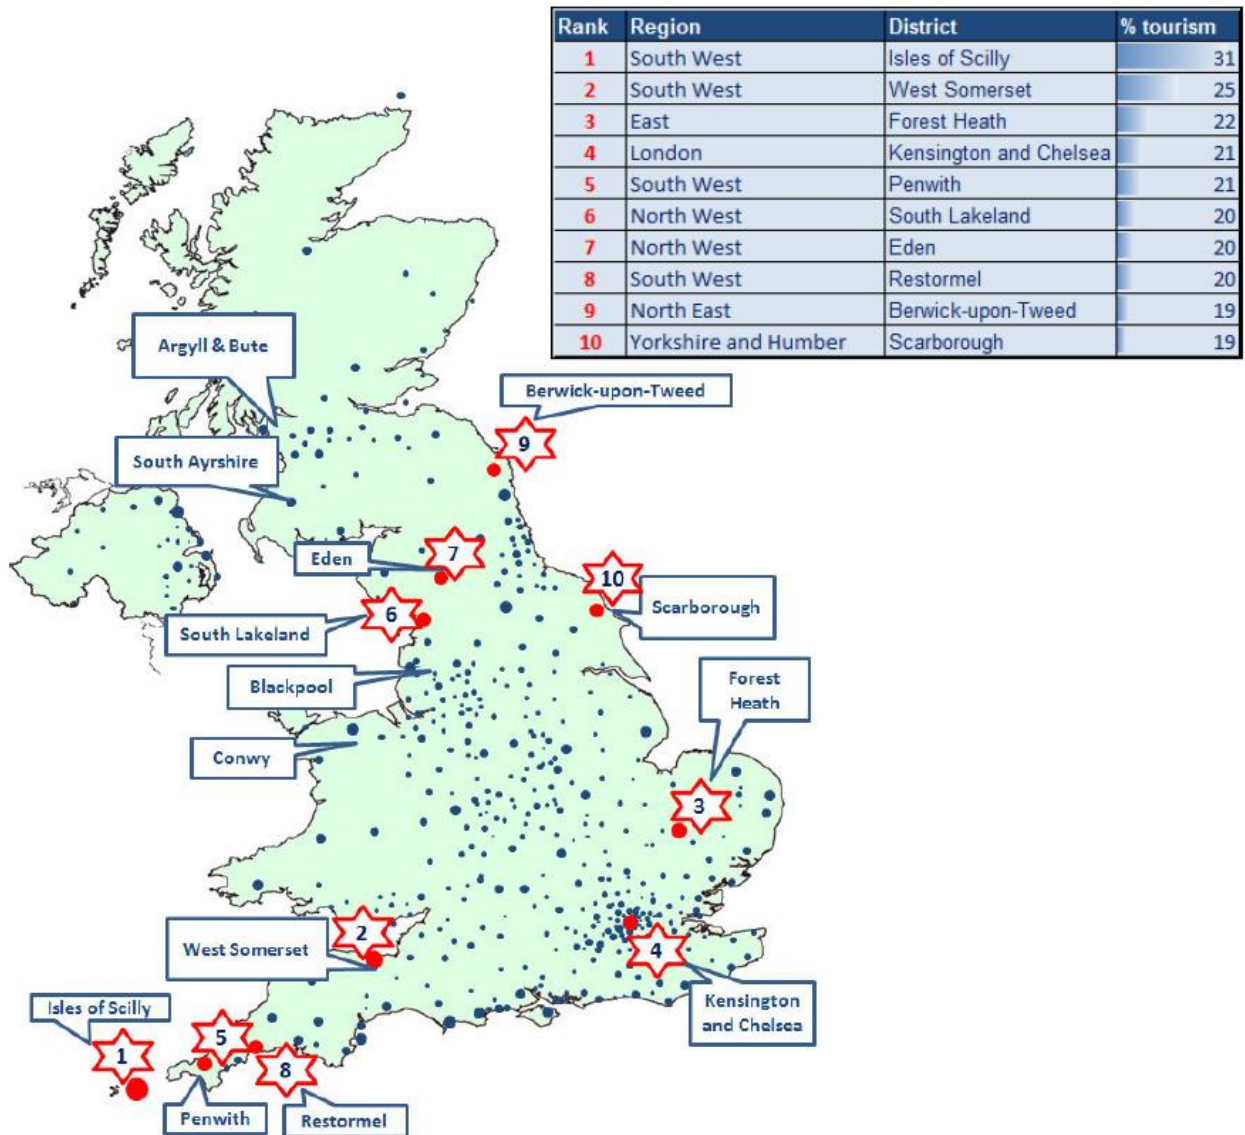

- i) What is its average annual growth in the tourist sector projected to be over this period? [1]
- ii) Suggest why the tourist sector might not actually reach this level? [3]

Please turn over

Question 2

Study Figure 2, which shows the share of employment in tourism as a share of total employment by district, 2008.

Figure 2

- a) According to the data in the table, which region's employment structure do you think is most dependent on tourism? [1]

North East

North West

South East

South West

- b) With reference to Figure 2, describe the pattern of districts most dependent on tourism in terms of employment. [3]

- c) Which of the following sectors do you think will dominate the majority of jobs in the tourist sector? [1]

Primary

Secondary

Tertiary

Quaternary

Question 3

Study the map extract which shows an extract of the Suffolk coast in East Anglia. Credit will be given for effective reference to the map.

- a) Compare the physical characteristics of grid squares 3851 and 4049. [4]
- b) With reference to the map extract, suggest why Orford is a popular place for tourists to visit. [6]
- c) Study Figure 3, a photograph of Woodbridge Airfield looking due East. Woodfield Airfield is a former Royal Air Force station.

With the use of the photo and the OS map extract, discuss the environmental issues which may arise from the reopening of Woodbridge Airfield as a regional commercial airport. [6]
